SET-UP-CHARGE - Our FILM-CRT FILMRECORDERS use 'ROLL film'. Set-up Indicates 'film-rolls' + 'processing' + 'prep of the images for recording' SET-UP rate amount offsets the film+process cost. Up to 36/35mm or 10/120 images There is a 1 time set-up charge for CRT recording orders. If your job requires many rolls [many images], the set-up is waved [indicated below].

NOTE: Companies that produced these machines have not updated the software in years - so we must maintain older computers w/older OS/systems. We have to test films achieve proper color or tone output. There were never any B&W films calibrated for CRT output - this is a custom service. - Quality output is much more costly for these reasons.
